

La base de dades Transactions té dues taules: company i transaction.

Podem considerar transaction com la taula de fets on queden registrades les transaccions bancaries que fan els usuaris, on el camp Id és la PK (o registre únic que no admet camps nuls que identifica inequívocament cada transacció realitzada). I per a relacionar-la amb la taula company, té una FK, que és la “company_id”, que coincideix amb el camp “id” de la taula company, i serveix de connexió entre les dues taules.

La taula company és una taula de dimensions amb les dades de les companyies a les que pertanyen o treballen els usuaris que fan les transaccions. La PK és el camp “id”, que sembla ser el registre únic i específic per a cada companyia.

Esquema:

Per tant, la taula de dimensions company es relaciona amb la taula de fets transaction pel camp “id” (PK de company) i “company_id” (FK de transaction) per a poder fer les consultes dels JOINS. Aquesta relació és de 1 a N, que vol dir que pera a cada “id” de la taula company podem trobar més de una dada coincident amb el camp “company_id” de la taula transaction, ja que s’entén que poden haver moltes transaccions per a cada companyia.

EXERCICI 2 (3 APARTATS)

The screenshot shows a database management tool interface. At the top, there is a toolbar with various icons and a dropdown menu set to "Limit to 5000 rows". Below the toolbar, a SQL query is displayed in a text area:

```
1 # EXERCICIS SPRINT 2
2 # NIVELL 1
3 # EXERCICI 2: utilitzant JOIN realitzaràs les següents consultes:

5 # Llistat dels països que estan fent compres
6 • SELECT DISTINCT country
7 FROM company c
8 JOIN transaction t
9 ON c.id = t.company_id;
```

Below the query, the "Result Grid" is shown. It has a "Filter Rows" field and an "Export" button. The grid displays a list of countries:

country
Germany
Australia
United States
New Zealand
Norway
United Kingdom
Italy
Belgium
Sweden
Ireland
China
Canada
France
Netherlands
Spain

Below the result grid, the "Output" section is visible. It shows the execution of the query:
